

Michigan Outdoor Recreation Search Interest Forecast September 3, 2026

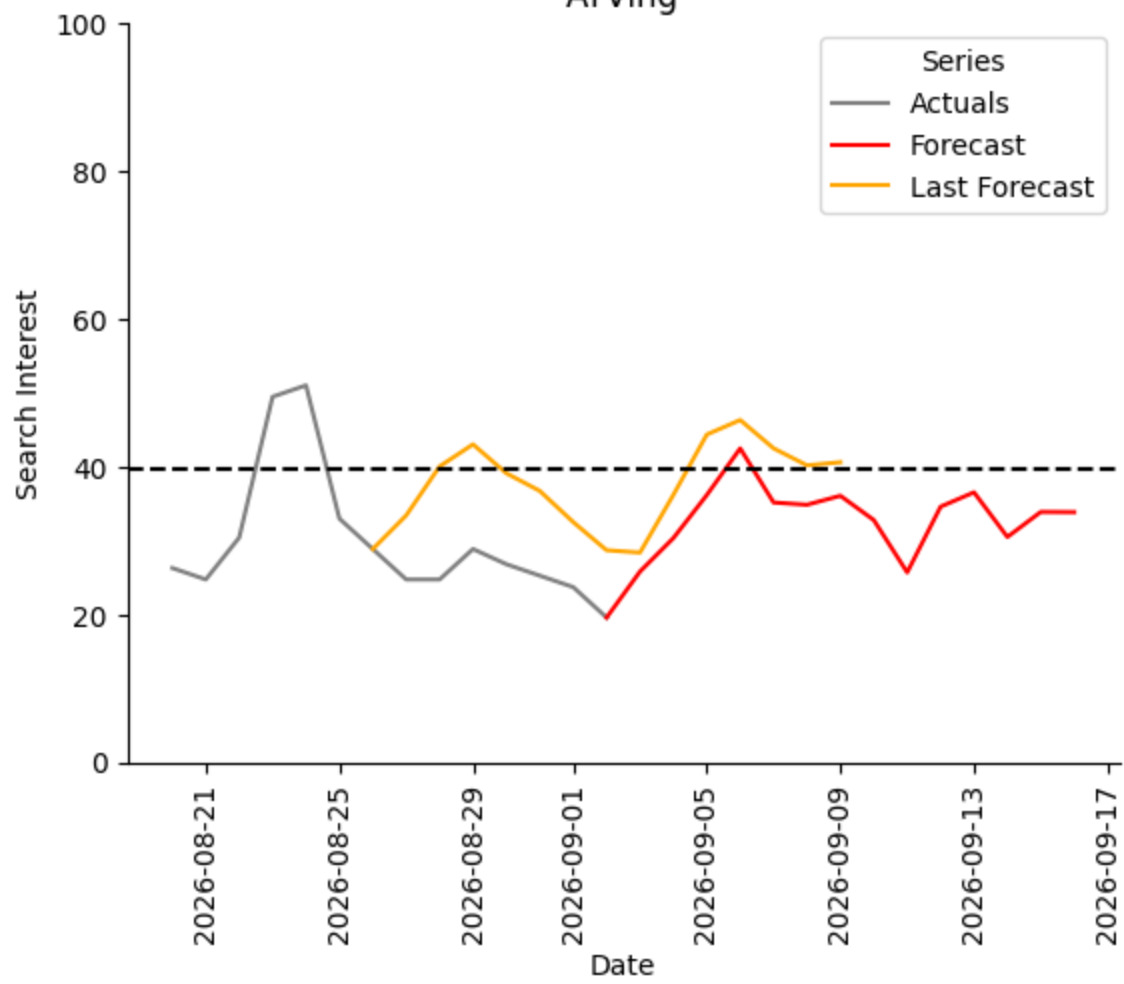

This is my 14 day forecast for Google search interest in Michigan for ten forms of outdoor recreation. The main page for this project is pasted below.

<https://dataandoutdoors.com/michigan-outdoor-recreation-search-interest/>

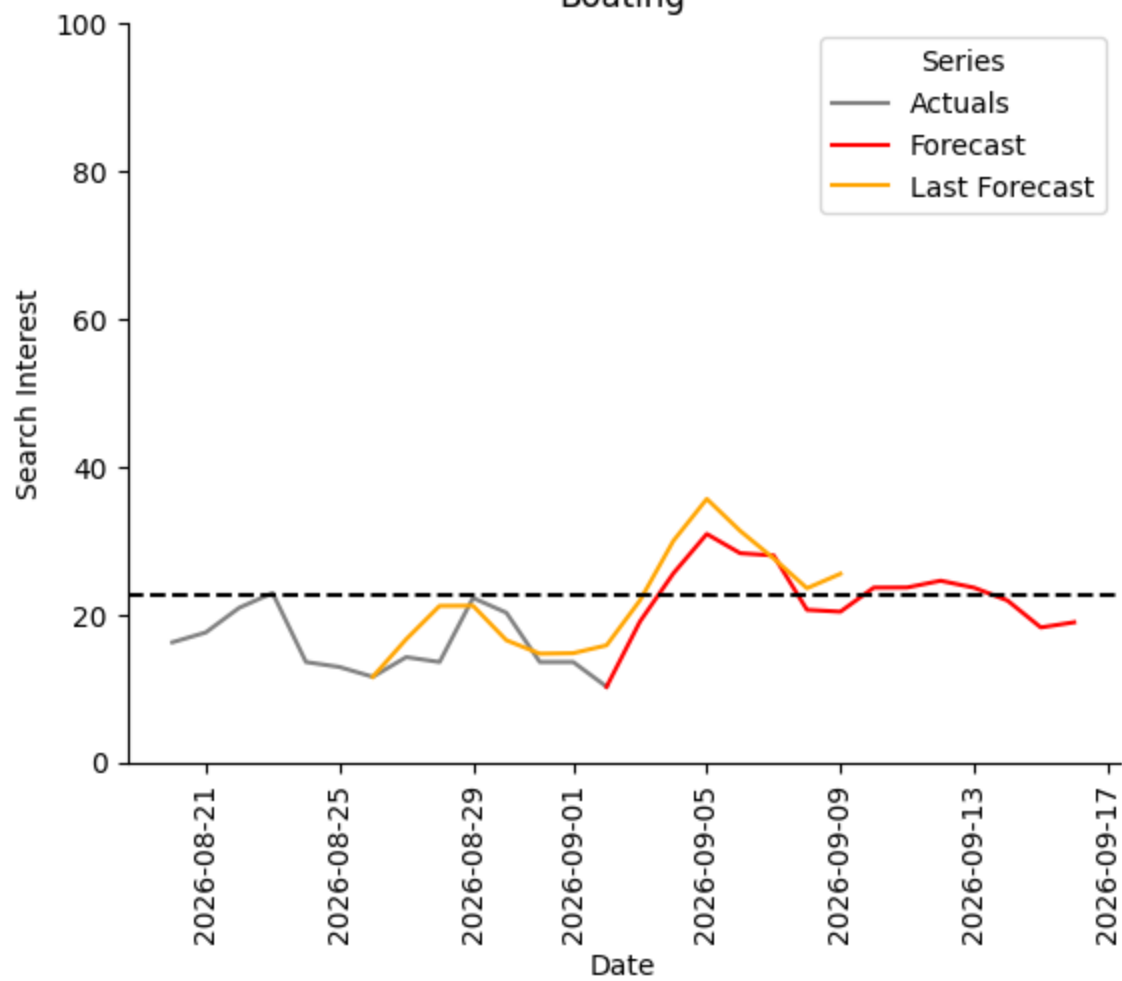

These forecasts employ a Long Short Term Memory (LSTM) neural network to create 14 day forecasts. These models consider weather, lagged values of search interest, time of year, day of week, and holidays.

In the figures below, each forecast is provided along with the past two weeks' actual values, the last forecast, and the five year average search interest for the same days of past years.

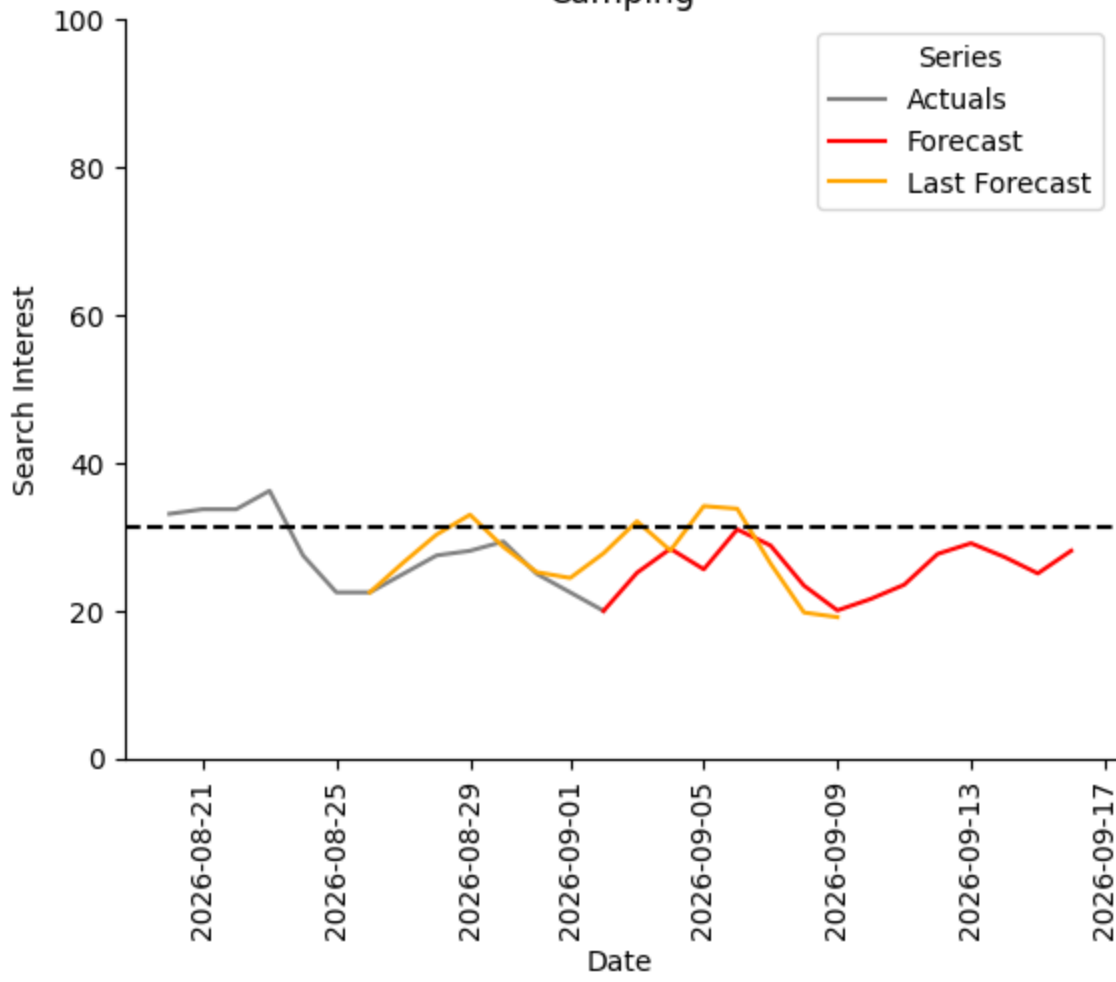

ATVing

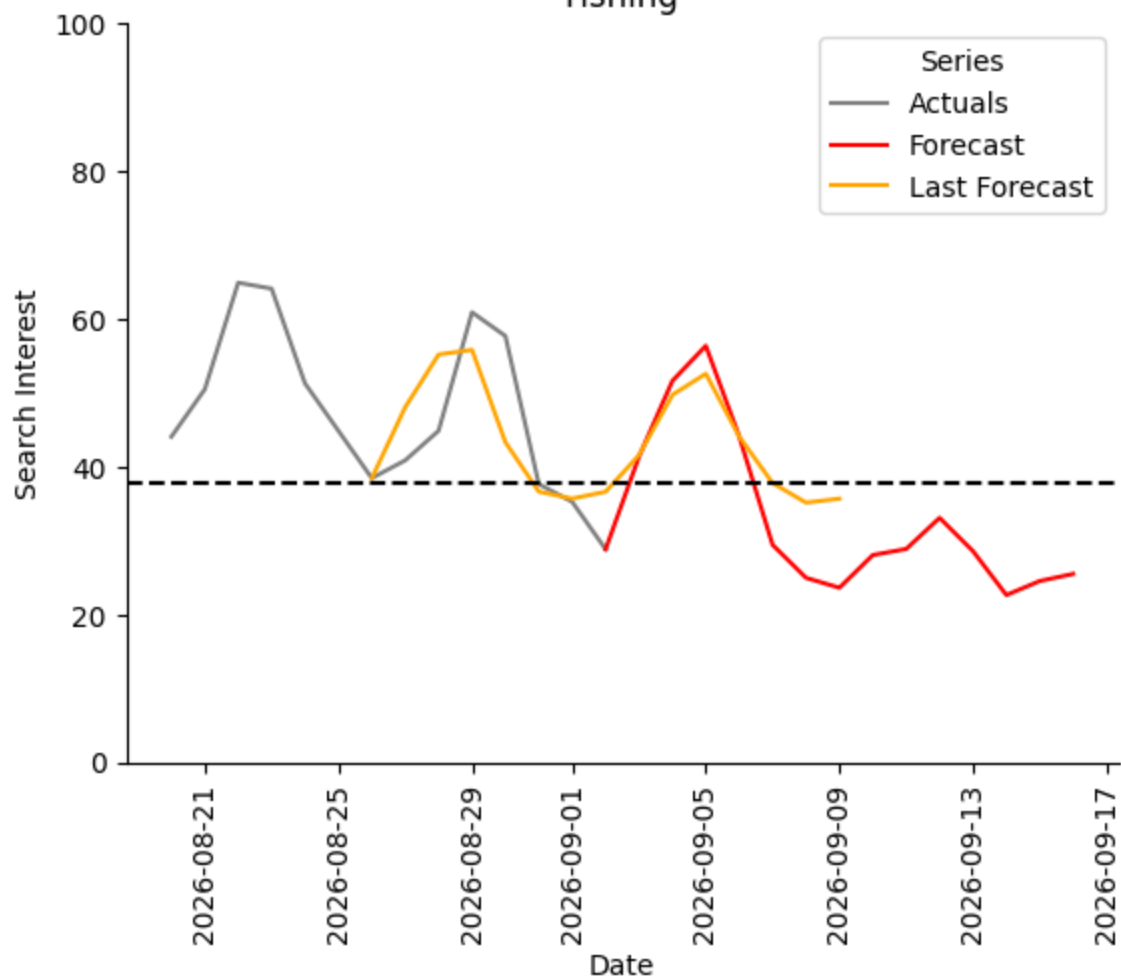

Boating

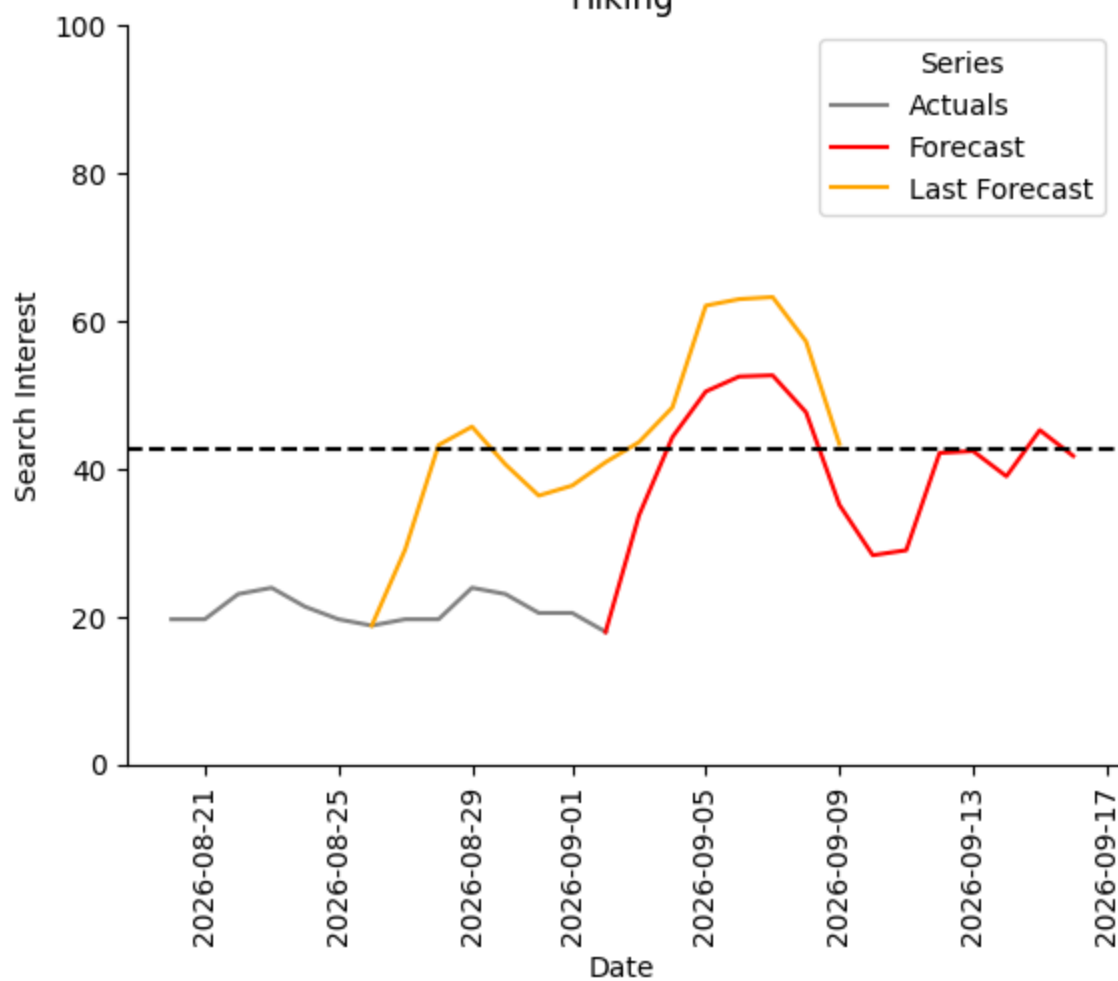

Camping

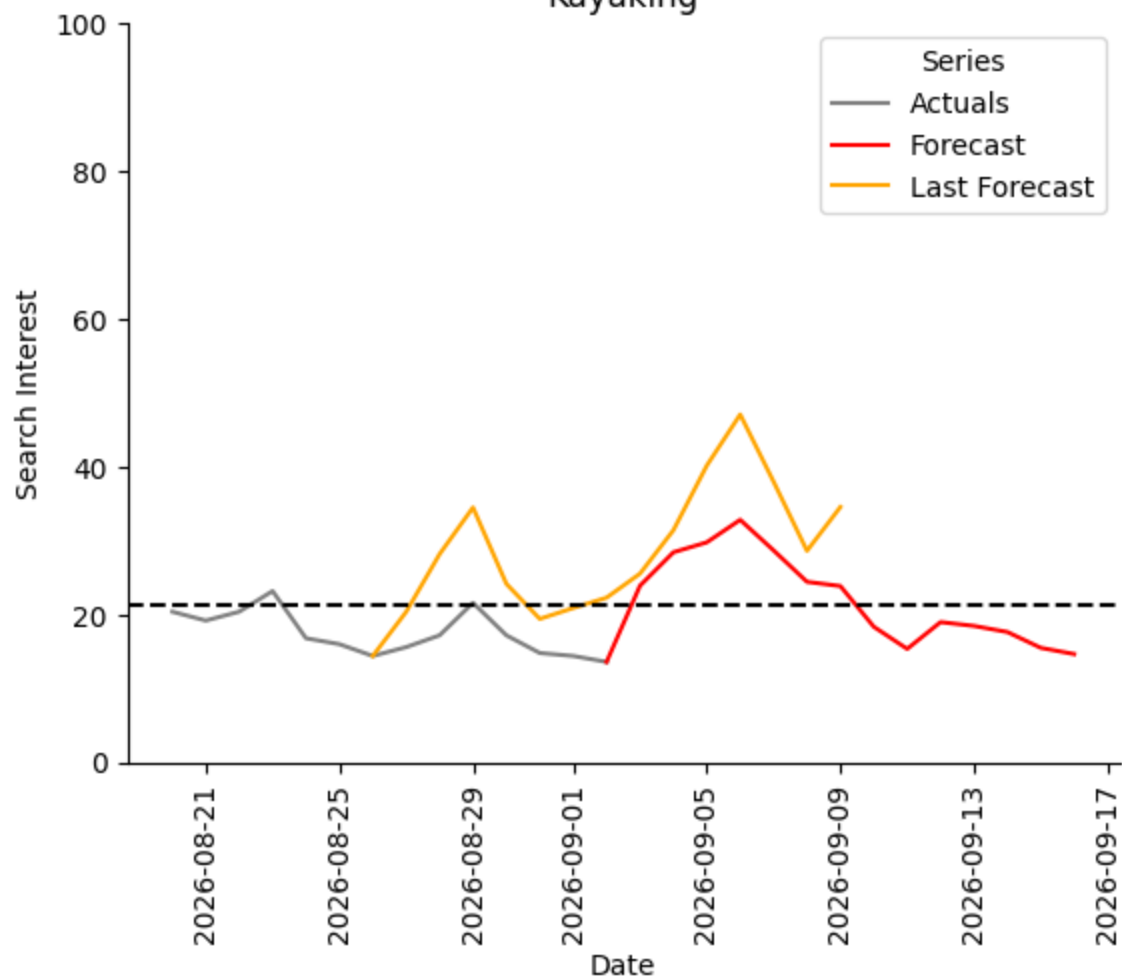

Fishing

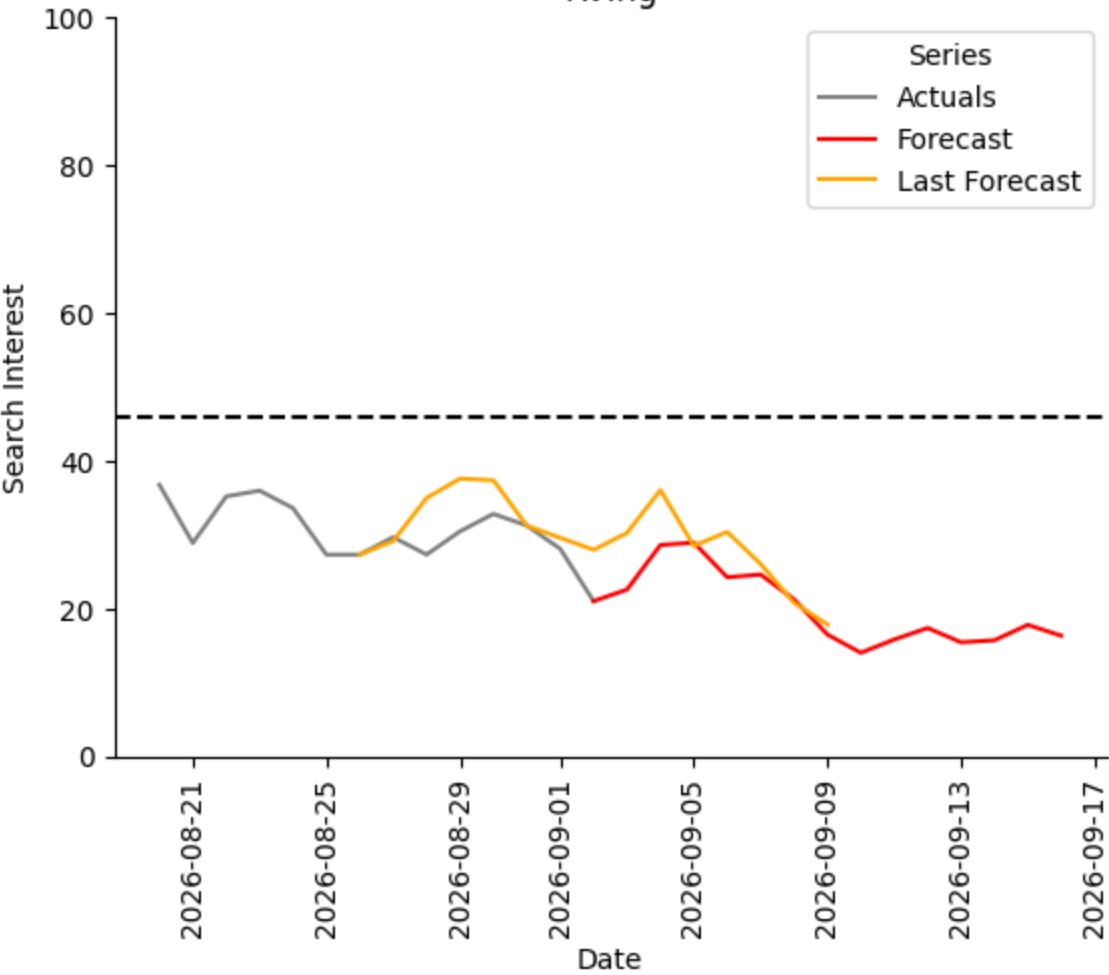

Hiking

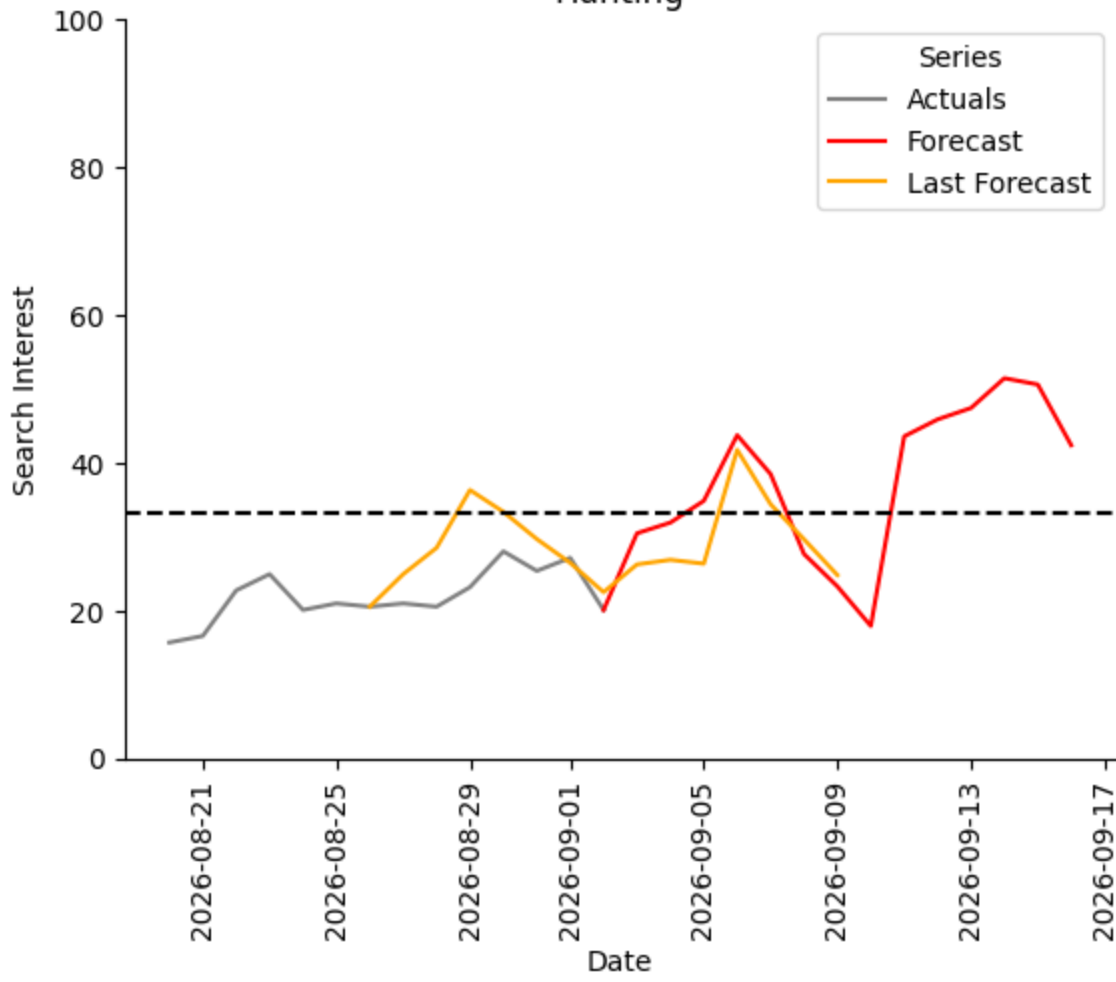

Kayaking

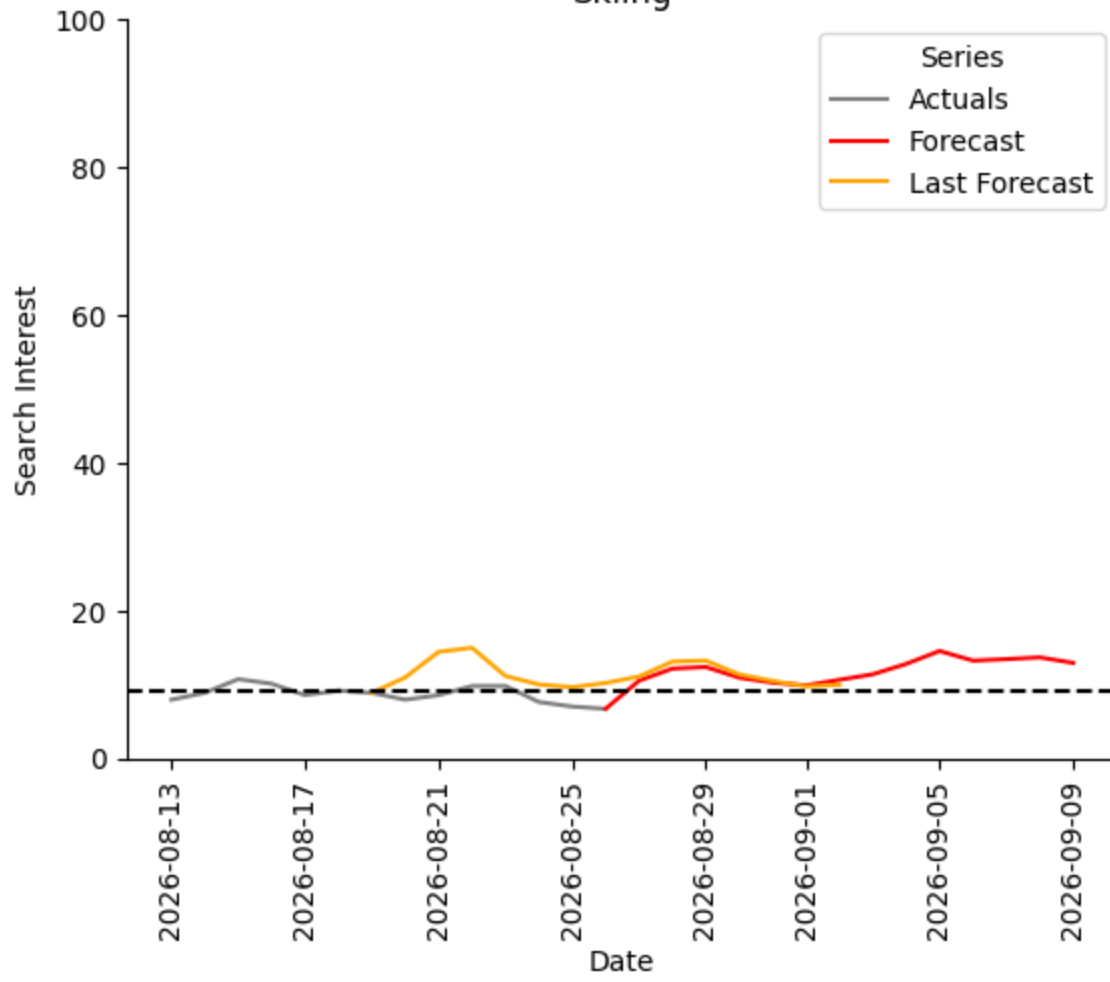

RVing

Hunting

Skiing

Snowmobiling
